Dear Toolady.com Family,

In ***My Human, My Slave***, the avian authors, Echo and Dust Bunny, introduced you to their methods of training the perfect human slave. This is a totally new way of approaching the relationship between Avians and Humans. With the success of the book orders, it appears to be a method long overdue.

Previously, all training books have been written from the human viewpoint. We thought it was time for the humans to learn what the birds think and for humans to have a source of constantly improving information and resources. This concept we created, is a series of books on bird-related subjects, written by the birds themselves, that will make learning about bird behavior and care more fun.

In ***My Human, My Slave***, you met Echo and Dust Bunny, and then in ***Guide to Birdie First-Aid***, you were introduced to Asia and in ***Guide to Birdie eBiting*** Killian explains to you why birds bite and what you can do to prevent it. Here we would like to provide you with slightly lighter fare. In the spirit of our ***Children's Message Board***, the entire flock got together to create the very first Toolady.com coloring book.

Hopefully this book will not only be fun for the kids, but entertaining for the adults too.

Thank you from the flock.

Echo, Asia, Maya, Rosie, Dust Bunny, Lint, Killian, Siobhan and Toolady (aka Elizabeth Aaron and Gail Martin)
